JACKLYNN LITTLE

Jacklynn Little Interiors
www.jacklynnlittleinteriors.com

Designing this townhome living room was a unique creative experience, as the clients wanted a departure from the typical color palettes. My design approach always begins with fabrics, and in this case, it was about harmoniously blending the deep purples, lavender and silvery grays to create an elegant, yet comfortable space. The challenge lay in retaining their existing carpet and wing chair which was reupholstered with this luxurious deep purple velvet fabric. To ensure a seamless design, a new custom sofa was made with silvery gray velvet fabric to coordinated with the carpet additionally, I had two matching custom chairs with this unique purple and taupe patterned fabric. The room's focal point became a colorful piece of art behind the sofa, perfectly aligned with the new design. The clients were not only exceedingly pleased with the overall design, but also delightful to collaborate with, making the project a resounding success. Their satisfaction underscores my prowess as a skilled designer in bringing their dreams to life.
